THE A

THE BIG PICTURE

The Grand Ultimate 2000 is a palm-size universal VGA-to-TV converter box that can be used to simultaneously display the output from a computer on a TV. Games, DVDs and presentations can be displayed on the TV screen to make it easier to get your message across.

The device supports resolutions up to 1024 x 768

and draws power from the keyboard port to produce Composite Video, S-Video and RGB (or YUV component) output. It

has no software driver requirement, is compatible with any operating system and can

be switched between NTSC, NTSC-EIAJ (for Japan), PAL, PAL-M,

PAL-N, PAL-

combination-N and SECAM (via RGB OUT)

video system. The Ultimate 2000 PC-TV retails for \$207. For details call the distributor Nucleus Computer

Services on 9569 1388 or visit www.grand.com.tw
